**Sealy Posturepedic.** Preferred hotel supplier for 30 years in Thailand

## Sealy Heritage

### The undying dedication to help the world sleep better!

#### A journey began in Sealy, Texas in 1881

Daniel Haynes, a cotton gin builder, turned his passion for making cotton filled mattresses into a world recognized brand. In 1889, Daniel invented a machine to compress cotton and upon the machine's success, he licensed it to others to make mattresses. The products produced became widely known as "mattresses from Sealy". Today, famously branded as Sealy.

#### In 1952, Introduction of Posturepedic Technology

For the past 67 years, we have been at the forefront of mattress technology. We have leveraged our experience and innovations to provide technology that delivers deep, targeted support right where you need it.

#### In 2006, Sealy US formed the Orthopedic Advisory Board

To continue to build on Sealy's rich heritage we focus on developments and innovations that help contribute to consumer's orthopedic health and provide more restful and recuperative sleep.

## Over three decades of setting the standard in quality bedding

For three decades, Sealy has been one of leading mattress brands and unwavering in its vision to help the world sleep better. Through constant improvement and years of experience in design, manufacturing and leadership, Sealy is poised to continue its legacy for years to come.

Sealy promises consistency in providing great quality. **ISO 9001:2015** certified by BVQI (Bureau Veritas International Quality Assurance) as a high standard product - makes us the first certified company in the mattress and bedding industry in Thailand.

Being highly involved and invested in Research and Development, we established the first mattress testing laboratory in Asia in 2014. The laboratory has been accredited by **ISO 17025:2005** for the competence of international standards.

# Sealy Advanced Technology

**Sealy Posturepedic mattress** feature durable components to ensure years of guest comfort and easy housekeeping – helping to drive higher occupancy and rave reviews for your property.

**1 Rich-feeling, Antimicrobial, Fire Retardant**

for comfortable, long-term protection of the mattress.

**2 Cushioning–Premium Foams,**

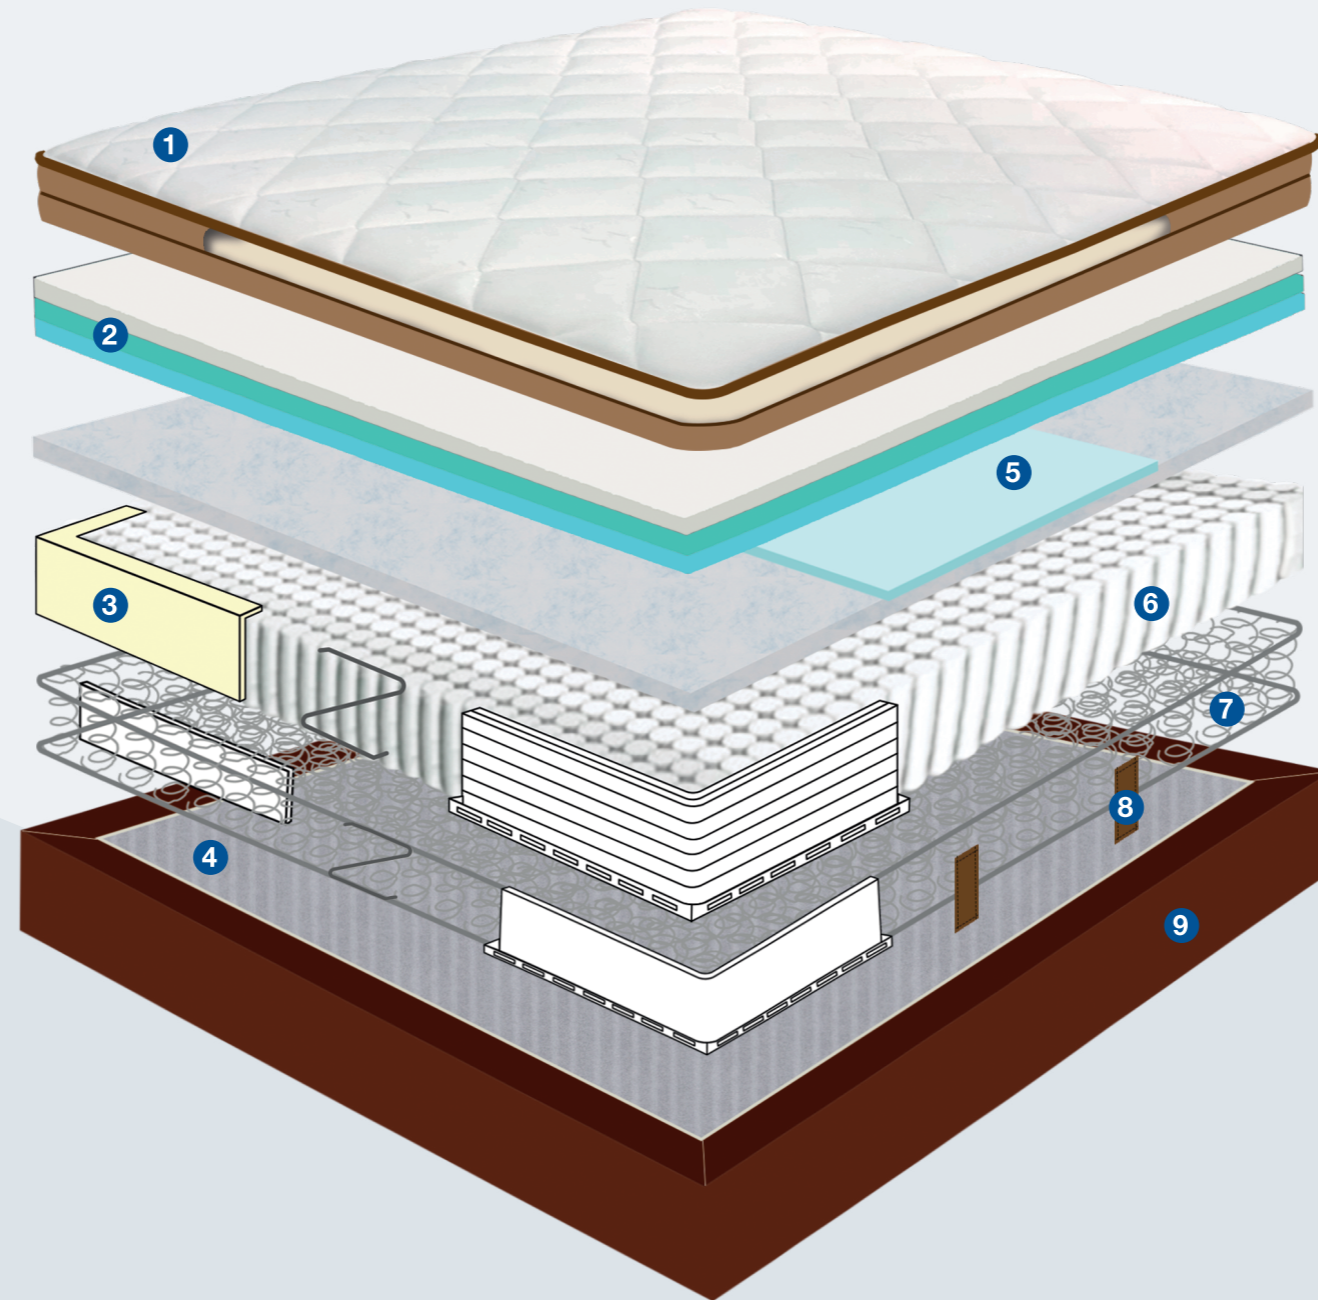

all high quality foam and fiber comfort layers for superior performance and longer comfort life to deliver increasingly higher level of luxury.

**3 Edge Support**

for a fully supportive feel and to ensure that the bed keeps its shape over time (Unicased XT, Unicased, Comfort Guard Edge Guard, S-Support)

**4 Anti-Slip Foundation Top**

to keep mattress in place while changing bed coverings.

**5 Extra Foam in the center third**

to add support and minimize body impressions where guest weight is concentrated.

**6 Pocket Spring**

for enhanced head to toe comfort and reduced motion transfer.

**7 PostureTech Spring**

twice tempered coil to provide comfort, support and durability.

**8 Two handles on each long side with month labels**

for years of easy lifting and mattress maintenance.

**9 Hospitality–grade Foundation**

with Interlock Grid Modules or solid wood construction for stable feel and durability in hotel environments.

# Sealy Advanced Technology

## Support Technology

**PostureTech** Patented PostureTech coil developed with orthopedic surgeons. The Sense & Respond system, sense your body weight distribution and sleep posture then responds with correct push back support.

**Pocket Spring** Titanium Alloy Coils individually encased for ultra-conforming support with reduced motion transfer between sleep partners during the night.

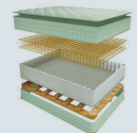

**Titanium** All Sealy steel innersprings are reinforced with Titanium\* content for enhanced strength and durability. Titanium is known to be twice as stronger than steel.

## Edge Support

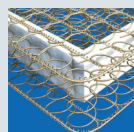

**Unicased XT** Reinforced surround support that stabilizes the spring unit and provides edge to edge surface comfort.

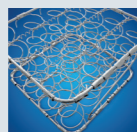

**Unicased** The construction locks the inner spring for great edge to edge comfort and support. It offers ultra-consistency for reduced motion transfer for best night sleep.

**Comfort Guard** Comfort guard system that surrounds the periphery of the mattress and adds foam edge to the inside of the spring. It strengthens the edge of the mattress and increases the sleep area.

**Edge Guard** Made of condensed bonded polyurethane foam is patented exclusively by Sealy. It surrounds the springs at the edge of each side of mattress, preventing sagging when sitting on the rim, providing edge to edge sleep surface support.

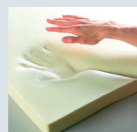

**S-Support** Provides strong seating edge, greater sleeping surface and uniform comfort edge to edge.

## Premium Comfort Layer

**Silk/Wool Fiber** Silk is an ideal climate insulation for your sleep that absorbs moisture and transfers it outside, facilitating breathability, and preventing body's overheating and sweating. Wool is a natural fiber which is inherently spring and soft. Wool's thermal property keep you warmer in winter and cooler in summer.

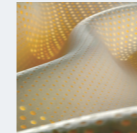

**Memory Foam** Soft memory foam relieves pressure point and enhances body weight distribution. Provides you the comfortable feel during the sleep.

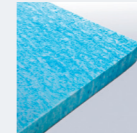

**Opticool Gel Memory Foam** This memory foam infused with gel beads, proven to be more effective for promoting a cool sleeping environment. It also has the ability to conform to your individual body shape and weight.

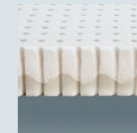

## Premium Comfort Layer

**Comfort Latex** Quality Latex provides resilient unique balance of comfort with perfect body support. Provides excellent air circulation created during manufacturing. This allows for good breathability, resulting in a comfortable sleeping temperature.

**Opticool Mable Memory Foam** It infused with micro capsule gel that inserted to balance and control the body temperature. It is proven to be effective for promoting a cool sleeping environment.

**Hybrid Inlay** Dual comfort from combination of memory foam and latex to ensure ideal comfort and support.

**Core Support Center** Provides more support in the center third of the mattress. The idea is to provide more support for the heaviest part (torso) of the body while still creating a consistent feeling of support from head to toe.

## Comfort Layer

**Super Extra Soft Foam** The plushest foam material, it makes an outstanding choice for a cozy mattress.

**Soft Convoluted Foam** The special soft touch convoluted foam supports and distribute weight balance.

**Ultra Soft Foam** Give the special soft touch as well as excellence body weight support.

**High Performance Foam** Polyurethane foam provides firm support. Increase flexibility and recovery well.

**High Density Foam** Optimized support with special high density, flexible and pressure point relief.

**Cotton/Poly Felt** Offer excellent balance and support.

# Sealy Advanced Technology

## Added Value Feature

**Fire Retardant** Mattress fabric treated with flame retardant protection provides extra safety. (Apply for all Mattresses ticking of Sealy Hotel Collection)

**Antimicrobial** Antimicrobial fabric is a nontoxic protector which inhibits the growth of dust mite by eliminating bacteria and fungi that they feed on thus providing protection from mites. (Apply for all Mattresses ticking of Sealy Hotel Collection)

**Anti-Bedbug** Helps you to protect yourself from bedbugs, it diminishes bedbugs that live or hide in the mattress fabric. It also effectively reduces mite infestation. Fabric is skin-safe (Optional\*)

**Cooling** Cooling fabric works dynamically to temperature changes and keeps your sleep environment cool and dry, all night. (Optional\*)

**Temp Control** Fabric contains micro-capsules which could adapt to your skin's microclimate to buffer against overheating and sweating, and it also prevents chill and shivering. (Optional\*)

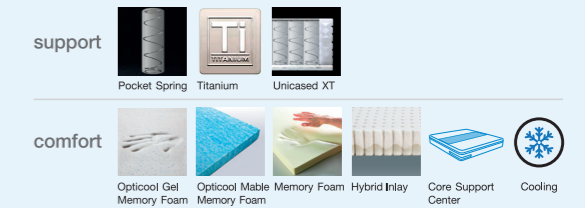

**Water-resistant** It inhibits moisture / fluid passing through to the mattress. It promotes a longer mattress life and reduces maintenance and room down time. (Optional\*)

## NIRVANA

Plush 13.5" 1S

A perfect blend of innovation and modernity with an OptiCool Gel Memory topper and OptiCool Marble Memory Foam Layer. Designed to absorb excessive heat from the body giving superior relaxation.
